Fifty Years  
of Progress

# n Nexus® 50

Signkit option ensures simple identification of waste streams.

Manufactured from recycled materials

The sleek, contemporary design of Nexus 50 will complement any office.

An optional general wasteflap contains any odours within the unit.

Nexus 50 is also available with a rear pod for the collection of small recyclable items such as bottle tops or waste liquid.

# n Nexus 30

New Nexus 30 is a stylish solution for areas where space is limited.

Nexus 30 Deluxe has a metallic silver finish.

C-Thru Nexus 30 - ideal for collecting batteries.

## n Nexus 100

This large capacity recycling unit provides a stylish solution to enhance efficiency in office environments.

The slim compact design occupies minimal floor space.

Nexus 100 Duo combines two waste streams in a single unit.

Manufactured  
from recycled  
materials

## n Nexus Cup Collector

A highly attractive solution for the collection of used cups and waste liquid.

Four stacking tubes allow cups to be compactly collected within the unit.

Side pod liquid reservoir collects waste liquid.

## n Eco Nexus

New

New Eco Nexus for organisations wishing to introduce a low budget recycling scheme.

## n Nexus 140

Designed for communal areas where a large capacity container is required.

## n Envoy™ and Envoy Cup Collector

D-shaped to take up minimal space. Two heights are available; 860mm & 730mm.

Aperture kits provide a versatile solution for different waste streams.

Envoy Cup Collector is designed to stack used drinks cups whilst providing a separate reservoir for waste liquid.

## n Nexus 2.5

New

Nexus 2.5 is an ideal desktop recycling bin.

## n Rowan™

Rowan is a compact recycling solution for locations where discrete waste separation is required. Each unit provides a capacity of 48 litres, which can be connected together to form a complete cluster.

## n Nexus 130 Trio

New

Nexus 130 Trio combines three waste streams in a single unit, either open or hooded top available.

## n C-Thru™ Trio

New

C-Thru Trio offers three streams of recycling collection within a single transparent unit.

## n Nexus Shuttle

New

Nexus Shuttle is a dedicated food waste bin available with a removable rigid liner or sack holder.

The foot pedal operated lid enables a hand free operation providing ease and speed of use.

Sack holding model can collect 30, 40 or 60 litres of food waste using an adjustable shelf.

## n Nexus 200

Nexus 200 is a contemporary styled twin-liner recycling bin, ideal for use in busy public areas.

Aperture kits and signs for each waste stream reduce the risk of contamination.

## n Nexus 360

Nexus 360 Recycling Container is a new and unique recycling housing designed to accept a 240 litre or 360 litre wheeled container.

Aperture kits and signs for each waste stream reduce the risk of contamination.

## n Glasdon Jubilee™ & Streamline Jubilee™

Glasdon Jubilee offers a stylish and practical solution for areas where a high volume of recyclable litter is created.

Streamline Jubilee has a narrow footprint.

Aperture panels in bright colours make the units easily identifiable and help to prevent contamination of waste.

## n Modus™

New

Modushousing is the perfect solution for maintaining the security and aesthetics of waste and recycling containers from 600L to 1280L.

## n Orbis™

Orbis is a tough sackholder providing the perfect combination of value, visibility and durability.

## n Visage™

New

Visage is designed to screen 600L to 1280L capacity wheeled containers and provides an attractive appearance to unsightly bins.

## n Topsy Trio™

A highly visible modular recycling solution for any outdoor environment.

## n Animal Shaped Recycling Bins

### Froggo™

### Splash™

### TidyBear™

Froggo, Splash and TidyBear encourage children to dispose of litter correctly, and can create a fun recycling system.
